

How to use wireless charging

1. Make sure the product is connected to the power supply.
2. Please put the phone centered onto the device in order to ensure that your phone will charge correctly.
3. If your phone does not support inductive charging, you have to equip it with an extra receiver (not included).

Please note

Some phone cases may block wireless charging.

Do not place other materials, like metal object, magnets, and magnetic strip cards, between the mobile device and the Wireless-Induction area.

When the mobile device is not placed on the charging surface accurately, your mobile device may not charge properly. If you use wireless charging in areas with weak network coverage, you may lose your network connection.

Safety Notice

- A remodeling or modification of the product would affect the safety.
Risk of injury!
- Please do not touch the charger with wet hands! If there is any liquid leaking, immediately cut off the power supply!
- Intended for indoor use only. Contact with moisture must be avoided!
- Please keep the product away from children.
- Please keep the product far from magnetic stripes or chip cards to avoid magnetic failure.
- Do not open the appliance without proper authorization and do not perform repairs yourself!
- If you do not follow the safety instructions and informations on proper handling in this user guide, we assume no liability for any resulting personal injury or damage to property. Furthermore, such cases will invalidate the warranty.
- Modifications and mistakes reserved.

This electrical device does not belong in the garbage. For proper disposal, please contact the public collection in your community.

Please note: we don't accept liability for any damages on connected devices. Please check compatibility of our product with the manufacturer of your device before use.
