

Safety Notice

- According to the international air traffic regulations, a powerstation with more than 100 Wh or 27.000 mAh can not be taken on the aircraft.
- Please charge the powerstation every 6 months.
- If the battery has less than 20% remaining capacity, the power maybe insufficient to power a 300W device.
- Do not operate any device with more than the rated power (300W).
- The AC adapter may heat up during charging – do not touch!
- Make sure that no device is connected to the powerstation when you are not using it.
- The powerstation cannot replace the normal power supply.
- Use the device only under supervision.
- A remodeling or modification of the product would affect the safety.
Risk of injury!
- Intended for indoor use only. Contact with moisture must be avoided!
- Please keep the product away from children.
- Do not open the appliance without proper authorization and do not perform repairs yourself!
- If you do not follow the safety instructions and informations on proper handling in this user guide, we assume no liability for any resulting personal injury or damage to property. Furthermore, such cases will invalidate the warranty.
- Modifications and mistakes reserved.

This electrical device does not belong in the garbage. For proper disposal, please contact the public collection in your community.

Please note: we don't accept liability for any damages on connected devices. Please check compatibility of our product with the manufacturer of your device before use.
